NIGHT FLIGHT CONCEPTS ANNOUNCES AFFILIATE TRAINING CENTERS FOR NIGHT VISION GOGGLE OPERATORS IN US & CANADA

HOUSTON, Texas, (February 20, 2010) — **Night Flight Concepts, a comprehensive night vision solution company, is pleased to announce its network of Affiliate Training Centers (ATC) for operators of night vision devices in United States and Canada. Each ATC will offer NVG pilot training in Bell 206 or Robinson R44 helicopters. Several ATC's will offer NVG maintenance technician training to new and existing customers to provide a single vendor solution.**

As the Premier Night Vision Training Provider, Night Flight Concepts is able to provide standardized FAA Part 141 NVG pilot training and FAA Part 145 maintenance training as part of their **Turn Green...Turn Key™** program throughout the US and Canada. US training centers include **Palm Beach Helicopters** (Southeast US), **Leading Edge Aviation** (Northwest US), **Mauna Loa Helicopters** (Hawaii), and **Helicopter Institute** (Central US). The **Flight Test Centre of Excellence** (Ottawa, Canada) will serve as the Canadian ATC for both NVG pilot and maintenance training.

The ATC facilities will help Night Flight Concepts deliver value to customers in regions across North America through delivery of Night Flight Concept high-value training and maintenance services. Each ATC will offer Night Vision Goggle operations and maintenance training options to the industry

“In addition to providing enhanced, direct regional support to NFC customers, the ATC network will benefit clients by reducing the time and costs associated with travel away from work and home” stated Adam Aldous, NFC president. “Each ATC will provide the same high-quality NVG training products and services that our clients have come to expect from Night Flight Concepts”.

Affiliate personnel are qualified as NVG instructors through the FAA Part 141 Approved Instructor Pilot (IP) program. In addition, NFC will conduct annual IP training and periodic on-site audits to maintain the high-quality of the NFC product and service offerings.
