## **Night Flight Concepts awarded NVG contract for Atlanta Police Department**

**Monday, June 1, 2009**

The City of Atlanta Police Department awarded a comprehensive night vision solution contract to Night Flight Concepts, Inc. (NFC) of Port St. Lucie, FL.

NFC will provide all of the necessary night vision equipment, pilot and crewmember training, NVG maintenance services and install night vision lighting for the cities MD-500 helicopter. The police helicopter will receive the latest generation night vision capable lighting modification and include NIVISYS NVAG-6 night vision goggles coupled with a comprehensive training program. The aviation section of the Atlanta Police Department provides airborne law enforcement services to the citizens of the City of Atlanta and other surrounding communities.

Night Flight Concepts will install REBTECH's night vision lighting equipment for additional safety, operational readiness and mission capability. The conversion will include modification of all cockpit, cabin equipment and external lighting for night vision compatibility. Additionally, NFC will provide the only FAA TSO-C164 approved night vision aviator goggles (NVAG-6), an NVG inspection service agreement to maintain continued air-worthiness and complete the NVG initial qualification training for the unit's pilots and tactical flight officers (TFO). NFC company president, Adam Aldous commented, "We're extremely proud to be providing additional safety for the flight crews and improved service to the residents of Atlanta and we appreciate the confidence the City of Atlanta has placed in Night Flight Concepts."

### **About Night Flight Concepts**

Based in Port St. Lucie, Florida, Night Flight Concepts provides complete night vision goggle equipment, flight training, NVG inspections/maintenance, and support for global customers looking to improve night flight safety for rotary wing flight operations. The company can also provide aircraft cockpit, cabin and crew station night vision capable modifications, installation and related consulting.
